A diagram of a protein structure represented as a horizontal line. A blue bracket is positioned above the line, spanning a specific region. Below the line, there are several vertical colored bars: a pink bar on the left, a green bar under the first part of the bracket, a purple bar under the second part of the bracket, and a series of orange, blue, green, and grey bars further to the right. A light green bar is located below the end of the protein line.
