Only InterPro Domain and Repeat entries are drawn, and only those are compared — so every domain the events table names appears here. Neither drawn nor compared: InterPro Family and Homologous_superfamily entries, the residue features (active/binding/conserved site, PTM), and member-database signatures (G3D5A/PTHR/SSF/cd/PF), which are not curated structural units. FILLED = compared. HOLLOW = removed before the comparison, so no row of the events table can refer to it — an entry that duplicates a longer kept entry of the same accession overlapping it.

A horizontal number line is shown, ranging from 6,580,000 to 6,589,000. Major tick marks are labeled at 6,580,000, 6,581,500, 6,583,000, 6,584,500, 6,586,000, 6,587,500, and 6,589,000. Minor tick marks are present every 100,000 units. A vertical dashed line is drawn at the 6,583,000 mark.

A horizontal number line with major tick marks at 150, 300, 450, 600, and 750. The labels are placed below the line and are rotated 45 degrees clockwise.

Only InterPro Domain and Repeat entries are drawn, and only those are compared — so every domain in the events table names appears here. Neither drawn nor compared: InterPro Family and Homologous_superfamily entries, the residue features (active/binding/conserved site, PTM), and member-database signatures (G3DSA/PTHR/SSF/cd/PF), which are not curated structural units. FILLED = compared. HOLLOW = removed before the comparison, so no row of the events table can refer to it — an entry that duplicates a longer kept entry of the same accession overlapping it.

The diagram shows a horizontal black line representing a chromosome. On the left, there is a pink vertical band, followed by a small green vertical band, then a large green rectangular block. Above this large block, a red line forms a loop that connects to a smaller green rectangular block on the right. Further to the right, there are several vertical colored bands: a cyan one, a purple one, an orange one, a blue one, a green one, a pink one, and an orange one. The chromosome ends with a grey rectangular block on the far right.

A horizontal number line with several colored blocks and a red bracket. From left to right: a small pink block, a small green block, a large green block, a red bracket above the line spanning the width of the large green block, a small green block, a blue block, and a pink block.
